SUMMARY

Final-year Computer Science and Engineering student at Daffodil International University working across three areas: full-stack web development, applied AI/computer-vision research, and graphics design for real client brands. Founder and developer of TTT Outfit, an e-commerce streetwear brand built end to end.

SKILLS

Frontend	React, TypeScript, JavaScript, Tailwind CSS, HTML & CSS, Vite
Backend	Node.js, Express, Python, C, REST APIs
Database	PostgreSQL, Supabase (incl. Row Level Security), MongoDB, MySQL
AI / ML	TensorFlow, Keras, OpenCV, NumPy — applied deep learning & computer vision
Design	Adobe Photoshop, Adobe Illustrator, Figma, UI Design
Tools	Git & GitHub, VS Code, Progressive Web Apps

EXPERIENCE

Founder & Developer — TTT Outfit Jan 2024 — Present · Dhaka, Bangladesh
Run a casual streetwear brand with a Bangladeshi cultural identity and built its storefront myself — product catalogue, cart, checkout flow and an admin panel for day-to-day operations.

Web Developer — Freelance Jun 2023 — Present · Remote
Build websites and small web apps for clients, handling design, frontend, backend and deployment.

SELECTED PROJECTS

TTT Outfit Storefront Full e-commerce storefront and admin panel for my streetwear brand, built from scratch. <i>Node.js · Express · MongoDB · Bootstrap</i>	Mess Manager Installable PWA running a shared student mess — meals, bazar costs, deposits, settlements — with Postgres RLS as the real authorization boundary. <i>Supabase · PostgreSQL · Row Level Security · PWA</i>
BanglaPlantNet Attention-based CNN detecting crop disease from photos taken in real Bangladeshi fields — final year research project. <i>Python · TensorFlow · Keras · OpenCV</i>	RetailHub Inventory, sales and e-commerce management system with a customer storefront and admin dashboard, backed by a relational MySQL schema. <i>JavaScript · MySQL · Database Design</i>
Gadget N Phone — Ad Creatives Social-media product ad creative series for a gadget retailer, with a consistent brand system across posts. <i>Adobe Photoshop · Social Media Ads</i>	Client Campaign Graphics Festival campaign visual, product infographic and social quote card across three unrelated client brands. <i>Photoshop · Illustrator · Campaign Design</i>

EDUCATION

BSc in Computer Science and Engineering — Daffodil International University 2023 — 2027 (Expected) · Dhaka, Bangladesh
Coursework across software engineering, computer graphics, algorithms and research methodology. Final year project on attention-based CNNs for crop disease detection.
